

Electrical Control

Excellence in Automation Solutions

The application of Electric motors revolutionized the industrial world and continue to be the workhorse of almost all industrial machines. Since 1962, Ramco Innovations has been a leading supplier of controls for these motors. By combining leading edge products with our passionate people and unequalled service, we will provide you best in class solutions for your electrical control applications. Please call us today to discuss your applications!

RICK
Hillmer

Electrical Control Product Manager

With over ten years of experience in the industrial field, Rick brings valuable knowledge and an understanding of the challenges our customers face in a production factory setting. As Ramco's Electrical Control Product Manager, Rick has intimate hands-on knowledge with designing and building panels, along with our product line.
